

# Volunteer Connection

## Congrats to FOH!

The Friends of Havenwoods have received a matching grant again this summer from the Friends of Wisconsin State Parks. The \$1000 award will help us fund our Buds 'n Sprouts program. FOH needs to provide a match of \$500 cash and \$500 in-kind (volunteer work in the Buds gardens). Call Laura Spencer at 527-0232 to set up a date if you would like to help.

## Volunteers Needed

**Veggie choppers:** The kids' gardening program still needs 3 volunteers to help one hour a week from June 20 to July 22. Laura will be making a quick transition Mondays through Thursdays between Brown Deer School and Havenwoods. She needs someone to fix the snacks for her groups before they come in from the gardens (around 2:30). The food and notes about what to do will be waiting for you. It's mostly washing, slicing, and chopping veggies for about 12-15 kids. Call Judy to tell us if you can help.

**Nature observers:** As the summer progresses, please let us know what species you are seeing here: prairie flowers, butterflies, dragonflies, birds, mammals, frogs, and snakes. We'll post lists for other visitors to see.

**Mowers:** Can you help mow the grass this summer? We have a riding lawn mower and will train you. This time of year mowing is needed almost every week. We hope to have several volunteers who trade off. Call Judy to offer your help.

**Cardboard recyclers:** We need corrugated cardboard to put on the paths in the kids' gardens to help keep the weeds down. If you have cardboard without a shiny surface, please remove tape and staples and bring it to the nature center any day we are open.

*This grand show is eternal. It is always sunrise somewhere; the dew is never all dried at once;*

*a shower is forever falling; vapor is ever rising. Eternal sunrise, eternal sunset, eternal dawn and gloaming, on sea and continents and islands, each in its turn, as the round earth rolls. John Muir, naturalist, explorer, writer*

## Upcoming Programs

### Geocaching for Beginners

July 9, 10 - 11:30 am (Saturday)  
Geocaching uses GPS units, maps, and clues to locate hidden caches all over the world. Adults and youth over 12 are invited to learn how to use a GPS unit to find several caches at Havenwoods. We have GPS units for people to use during the program. You can borrow one anytime to use on the

### Shakespeare in the Park

July 29, 5:30 workshop for kids, 7:30 performance (Friday)  
The Summit Players are back. They will perform a mini-version of "As You Like It." It will run a little over an hour and include mayhem, character switches, and hilarity. We'll be outside on the benches in good weather, inside in the auditorium if it's not. For more info and more venues, visit [www.summitplayerstheatre.com/](http://www.summitplayerstheatre.com/)
